OUTPOSTS
OUTDOOR ADVENTURE SPECIALISTS

Here are just some of the many comments Outposts has received from expeditioners and their parents!

"To everyone at Outposts – I just wanted to write and say thank you for everything. You've helped me to learn so much more about the world and I can't wait to explore some more! I had the most amazing time and I'll never forget it!" *Expeditioner - Nepal*

"Dear Outposts - You have provided a life changing experience for these guys and girls and the website kept us parents fully updated with all their adventures. Thank you for all the time and effort you have given and I hope that many more people will get to benefit from the wonderful experiences that you provide".

Parent - South Africa

"Dai, Katie and all at Outposts. Thanks so much for giving our daughter the time of her life – she had a fantastic time – what an experience!" *Parent - Nepal*

"Hi Fee, Can I just write to say thank you for the fantastic opportunity that Outposts were able to offer my daughter. She had an amazing experience and didn't want to come back! She had a genuinely awesome experience on all sections of the expedition that will be truly unforgettable. Thanks also for the regular email updates. I was really re-assuring to be able to get running news on the progress of the expedition."

Parents - South Africa.

"Hi Fee. Can I just say from a parent's perspective, I have been really impressed by everything that those in organisational and support roles like yourself have done. This was the first time my daughter has been away for more than a week, and her first time outside Europe. All of the advance planning, and communication with (expeditioners) and families before, during and now after the trip has been superb and as a parent I am very grateful to you all for this. She seems to have made the most of this wonderful opportunity – we have already enjoyed her photos, read a superb poem and heard a few of what will likely be many stories. All I can say is that I get the feeling this has been an experience that will inform many of the decisions she will make in the months and years ahead – only time will tell.

To be able to travel to South Africa, work as part of a team, and help those whose situations are much less fortunate than our own is a wonderful opportunity and my wife and I would wish to thank you all for everything you have done to make this such a success. Would there be any chance of organising a trip for Dads next time!" *Father, Cadets - Lesotho*

"As a last note, the (expedition) doctor warned us of every infectious disease under the sun. One he left out though was the infectious smiles we all keep catching from these lovely, sweet children".

Expeditioner's Diary entry following day one of community project - South Africa

"As a parent I would like to thank you for the updates. It's been wonderful to see the pictures and read what they are up to. It's been very much appreciated thank you once again" *Parent - South Africa*

"Hi. Just wanted to thank all concerned with the South Africa trip that has just returned. Our son had the most fantastic experience, loved every minute of it and made lots of new friendships which I'm sure will endure. From a parental point of view the organisation was superb, I never for one moment doubted anyone's competence or ability or felt concerned whilst he was away. To anyone considering undertaking a similar trip with your Company - was it expensive? Yes, but they all are. Was the fundraising hard work? Yes, but with it comes a sense of achievement both in organising successful events and when you finally get there. Would we recommend your organisation to anyone else? Absolutely! *Parents - South Africa*
